Requirements

Stage

- min. 6 m x 3 m
- power supply: 3 x 220 V, 1 x 220 V for decoration light

Video

- video projector with signal cable
- projection screen behind the band

The video signal will be delivered by the band on stage:
16:9 full-HD via HDMI, DVI or VGA.

Lighting

- very dark
- illumination from behind, only showing the outlines of the musicians
- only the singer should have a spot from in front

FOH

- mixer with 16 mic/line inputs with EQ (parametric mids).

The band brings a person who controls the mix. An analog 16 channel mixer can be brought by the band.

Monitoring

Wedges and monitormix are not necessary. The band is running their own in-ear monitoring system on the stage.

Microphones

All necessary microphones can be brought by the band.
